DREER'S RELIABLE SEEDS

FOR MARKET GARDENERS

For the past eighty-six years the house of "Dreer" has been noted for the high quality of their Vegetable Seeds, and during that time has furnished many leading truckers throughout the Country with their supplies, thus gaining a national reputation for reliability and good quality. We will not knowingly send out seeds of doubtful character and for the protection of our customers, invariably make a thorough and critical test of all seeds received from our growers and they must be of the highest degree of germination. During the summer, we also conduct extensive purity tests at our Trial Grounds and thus know the quality of our seeds, both as to their germination and purity. We are in position to give prompt attention to all orders and will greatly appreciate your patronage.

Information to Customers Ordering from this Catalogue

Cash with order. Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way. Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance. No perishable stock will be sent C. O. D.

Seeds by Parcel Post. We deliver postpaid to any Post Office in the United States, all orders for ounces, quarter-pounds and single pounds of Vegetable Seeds unless otherwise specified. If Beans, Sweet Corn, or Peas are wanted sent by Parcel Post, add extra at the rates given on pages on which these seeds are offered. Bulky items, such as Field and Grass Seeds, Onion Sets, Potatoes, Vegetable Plants and Roots, Fertilizers, Insecticides, Garden Implements and Requisites of all kinds are sent by express, or freight at purchaser's expense.

Non-warranty. Henry A. Dreer, Inc., gives no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any Seeds, Bulbs or Plants they sell, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Special low express rates. As seeds are now taken when packed in boxes or bags, by Express Companies at the second-class rate, it is a great advantage to those ordering in quantities which are not offered postpaid to have their orders shipped by express. Large quantities can be shipped cheapest by freight, but require a longer time in transit. If the manner of shipment is left to us, we will always use our best judgment in the matter and decide to the interest of the customer.

Packing. We give special care to packing all orders and make no charge for boxes nor for delivery to freight depots or express offices in Philadelphia.

Plant Department. Our nurseries contain nearly three hundred acres, more than ten acres of which are covered by modern green-houses. We grow and supply large quantities of Palms, Ferns, Roses, Dahlias, Cannas, Hardy Perennial Plants, etc. These are fully described in our **Garden Book for 1924**, a copy of which will be mailed free if you are interested.

With the Bolen's the market grower who practices intensive cultivation of row crops will find a machine that does the most exacting work much more rapidly than can ever be done with hand or push hoes.

A patented arched axle which allows the tractor to travel astride the row, pass over plants 14 inches to 20 inches high without damage, and work in rows 12 inches apart or wider.

A tool control whereby the operator may guide the tractor along winding rows, and do the most accurate weeding and mulching without injury to the crop.

Offset handles permitting the operator to walk between the rows, while the tractor travels astride the row.

Gauge wheels on the cultivator frame to accurately regulate the depth of cultivation.

Snap hitches on all attachments whether for seeding, cultivating or lawn mowing.
